

Shop the Shoe Store in Your Closet

Are you looking to put a little pep in your step on a reasonable budget? Don't head to the mall. Take a look in your closet. According to the Shoe Service Institute of America, most Americans retire their favorite footwear too soon. We can make your old favorites look new again for a fraction of the cost of new shoes.

"Most adults own two or three pairs of shoes they don't wear because the shoes need repair," says SSIA President Paul Angelos. "People are not aware of the variety of services available for both new and old shoes."

In addition to replacing soles and heels with materials that are often better than those originally on the shoe, we can:

- stretch shoes for increased comfort
- modify shoes to fit unique feet
- professionally waterproof shoes to protect from salt stains

- replace plastic heel tips with safer non-skid rubber
- apply heel savers to prolong the life of the heel
- apply protective soles to prolong the life of leather soles
- replace eyelets and other hardware

New Shoes

You can also visit us with new shoes. Here are a few ways we add value to new footwear.

- Protective soles can be applied to extend sole life and increase slip resistance.
- Shoes can be dyed if a color change is necessary.
- Shoes that are too tight can be stretched up to a quarter size.
- Plastic heels can be replaced with slip-resistant rubber.
- Shoes can be weatherproofed for added protection in wet or oily environments.

More than shoes

Our expertise isn't limited to your feet. We can also:

- Replace Zippers
- Shorten belts
- Repair luggage
- Re-lace baseball gloves
- Stitch handbags
- Repair jacket tears
- Refinish leather coats
- Replace buckles

Quality shoes aren't cheap and a favorite pair of shoes is hard to replace. So take a look in your closet, find your old favorites and bring them to us so we can help you maximize your investment.
